

LE MAQ PRO

Student Contour & Camouflage Kit

Pallet—1

Pallet—Warm

HD Loose Powder

Perfectly concealed with 'fard crème' CAMOUFLAGE

It's fun to show some skin. If minor skin imperfections such as pigmentation marks, scars, blemishes and small red blood vessels cannot be eliminated, then simply cover them up with MAQPRO camouflage.

Camouflage from MAQPRO is gentle on the skin and smear resistant with lasting powder between 12-15 hours.

You can obtain more or less coverage power by varying the amount of camouflage used. MAQPRO camouflage can be mixed with any liquid foundation and also used for contouring the face.
